

An Introduction

www.calcey.com

Why Calcey?

- **High-tech corporate bottlenecks**
(Agile RAD may not progress on time with large scale outsource partners. Even when it moves you get a low mileage.)
- **Top five consulting firms and gaps**
(Too expensive, slow moving, budget has to be hundreds of thousands of dollars for them to pay attention)
- **Opportunity was clear – (to set up a boutique technology services firm)**
(When working for High-tech cooperates we saw the need)

Customer Testimonials

- "Reception to the Knowledge Base has been great. I just got back from our mid-year sales meeting in Denver, and it's being touted as one of our biggest differentiators."
- *Scott Schoenick, Sr. Knowledge Consultant, Taleo Corporation*
- "Due to the nature of our business, it is absolutely necessary that we utilize the most effective, efficient and comprehensive information aggregation tools and technologies for our Web sites. Over the past five years, Calcey's solutions have provided us with just that, allowing us to leverage ubiquitous Internet technologies and comprehensive content repositories into content-rich segment-specific marketplaces for our professional B-to-B users."
- Paul Gatti, Chief Executive Officer, CompareNetworks
- "The feedback on our engagement with the Calcey Team has been very positive. Our project leaders are quite pleased with the value added insights that were provided by Calcey in the design phase, the flexibility to adjust to our very dynamic specifications and the ability to meet the committed timetables and deadlines. We have plans for additional phases to this project and look forward to continue working with you and your team to accomplish our goals".
- *Ken Dasso, Vice President of Global Finance & Administration, Brion Technologies*

Our Process

Our engagement process and solutions are customized to the way you work. There is not such thing as “cookie-cutter” technology solutions.
